Life was an American magazine published weekly until 1972, as an intermittent "special" until 1978, and as a monthly from 1978 to 2000. During its golden age from 1936 to 1972, Life was a wide-ranging weekly general interest magazine known for the quality of its photography. Originally, Life was a humor magazine with limited circulation. Founded in 1883, it was developed as being in a similar ...

This timeline of the evolutionary history of life represents the current scientific theory outlining the major events during the development of life on planet Earth. In biology, evolution is any change across successive generations in the heritable characteristics of biological populations. Evolutionary processes give rise to diversity at every level of biological organization, from kingdoms to ...

Our world is changing faster than anyone predicted. Already, freshwater supplies are shrinking, agricultural yields are dropping, our forests are burning, and rising oceans are more acidic—all, in part, due to a warming climate. As our natural world changes around us, so does our way of life. Coastal home values drop as insurance premiums rise; drought reduces feed for American farmers ...
