The history of zoology before Charles Darwin's 1859 theory of evolution traces the organized study of the animal kingdom from ancient to modern times. Although the concept of zoology as a single coherent field arose much later, systematic study of zoology is seen in the works of Aristotle and Galen in the ancient Greco-Roman world. This work was developed in the Middle Ages by Islamic medicine ...

History of zoology through 1859 - Wikipedia

Myrmecology (/ m ɪr m ɪ k ɪ d i /; from Greek: μύρμηκ, myrmex, "ant" and λόγος, logos, "study") is a branch of entomology focusing on the scientific study of ants. Some early myrmecologists considered ant society as the ideal form of society and sought to find solutions to human problems by studying them.
