Pain in Residential Aged Care Facilities - apsoc.org.au

Frailty is a common geriatric syndrome that embodies an elevated risk of catastrophic declines in health and function among older adults. Frailty is a condition associated with ageing, and it has been recognized for centuries. As described by Shakespeare in As You Like It, "the sixth age shifts into the lean and slipper'd pantaloons, with spectacles on nose and pouch on side, his youthful hose ...

Old age refers to ages nearing or surpassing the life expectancy of human beings, and is thus the end of the human life
cycle. Terms and euphemisms include old people, the elderly (worldwide usage), seniors (American usage), senior citizens
(British and American usages), older adults (in the social sciences), and the elders (in many cultures—including the cultures of
aboriginal people).

Types of elder abuse. Abuse of elders takes many different forms, some involving intimidation or threats against the elderly,
some involving neglect, and others involving financial trickery.

Elder Abuse and Neglect - HelpGuide.org

Most older persons with long-term care needs—65%—rely exclusively on family and friends to provide assistance. 1 Another
30% will supplement family care with assistance from paid providers. 2 Care provided by family and friends can determine
whether older persons can remain at home. In fact, 50% of the elderly who have a long-term care need but no family available
to care for them are in ...
