Download Training Materials (2.41 MB) Contains the additional materials not used in evaluation / management. These training materials describe the tool kit's rationale and illustrate its use (through the Case Study) in urinary incontinence evaluation.

Urinary Incontinence Toolkit - gericareonline.net

These tool kits were developed for the Practicing Physician Education in Geriatrics project supported by a grant from the John A. Hartford Foundation through the American Geriatrics Society. The toolkits are intended to help physicians better understand the common 'Geriatric Syndromes' and contain educational materials, suggested guidelines, forms and tools for evaluation, diagnosis and treatment.

As you grow older, you are more likely to develop long-term health conditions that require taking multiple medications. As a result, older adults have a higher risk of overmedication and unwanted drug reactions (adverse drug reactions). To lower the chances of these, here are recommendations for safe medication use.

Avoiding Overmedication and Harmful Drug Reactions
