Construction work is hazardous Land-Based job. Some construction site jobs include: building houses, roads, tree forts, workplaces and repair and maintain infrastructures. This work includes many hazardous task and conditions such as working with height, excavation, noise, dust, power tools and equipment.

### **Construction site safety - Wikipedia**

Historically many roads were simply recognizable routes without any formal construction or maintenance. The Organisation for Economic Co-operation and Development (OECD) defines a road as "a line of communication (travelled way) using a stabilized base other than rails or air strips open to public traffic, primarily for the use of road motor vehicles running on their

own wheels", which ...
