Note. The Power BI team is continually expanding the data sources available to Power BI Desktop and the Power BI service. As such, you'll often see early versions of work-in-progress data sources marked as Beta or Preview. Any data source marked as Beta or Preview has limited support and functionality, and should not be used in production environments.

Data are regularly collected in many countries, but more analysis is needed to translate them into useful strategic information for action. Data gaps include information on transgender people, young key populations and prisoners; inconsistent disaggregation of information by age and gender; and availability of city and sub-national data.
