

DUAL EARNER FAMILIES INTERNATIONAL PERSPECTIVES

dual earner families international pdf

The breadwinner model is a paradigm of family centered on a breadwinner, "the member of a family who earns the money to support the others". Traditionally, the earner works outside the home to provide the family with income and benefits such as health insurance, while the non-earner stays at home and takes care of children and the elderly.. Since the 1950s, social scientists and feminist ...

Breadwinner model - Wikipedia

Shared earning/shared parenting marriage, also known as peer marriage, is a type of marriage where the partners at the outset agree to adhere to a model of shared responsibility for earning money, meeting the needs of children, doing household chores, and taking recreation time in near equal fashion across these four domains. It refers to an intact family formed in the relatively equal earning ...

Shared earning/shared parenting marriage - Wikipedia

This paper engages with Hanson Thiem's (2009) critique of geographies of education. Accepting the premise that education warrants fuller attention by geographers, the paper nonetheless argues that engaging with research on children, youth and

Reserving a share of the parental leave period for fathers is considered necessary in order to induce fathers to take leave, and to increase men's participation in child-rearing.

Causal Effects of Paternity Leave on Children and Parents

This paper addresses the question whether a shift to a self-chosen marriage partner means that traditional cultural norms stressing family influence on spouse selection have been weakened by inroads of modern norms of greater individual autonomy in the marriage process.
