(PDF) Insects and their chemical weaponry: New potential

This is a dichotomous key developed to help you identify different insect orders located in Michigan. Begin by determining if the insect has wings present or not.

Key to Insect Orders - knowyourinsects.org

Just like humans, songbirds build homes to raise their families. While many people think songbirds only nest high up in the trees, the truth is they nest everywhere.

Nesting Season - Do Not Disturb!

The largest organisms now found on Earth can be determined according to various aspects of an organism's size, such as: mass, volume, area, length, height, or even genome size. Some organisms group together to form a superorganism (such as ants or bees), but such are not classed as single large organisms. The Great Barrier Reef is the world's largest structure composed of living entities ...

Largest organisms - Wikipedia

A dragonfly is an insect belonging to the order Odonata, infraorder Anisoptera (from Greek ?????? anisos, "unequal" and ?????? pteron, "wing", because the hindwing is broader than the forewing). Adult dragonflies are characterized by large, multifaceted eyes, two pairs of strong, transparent wings, sometimes with coloured patches, and an elongated body.

Kaskaiden anatomiaa. Kaskaiden koko ja vartalon muoto vaihtelevat paljon. Eri lajien pituus on maailmanlaajuisesti 1–65 mm, mutta suomalaisten lajien vain 1–20 mm. Kaskaiden siipiväli voi olla suurimmillaan 180 mm, Suomessa noin 30 mm. Aikuisena kaskaat ovat tavallisesti koko ruumiiltaan kapeahkon muotoisia, mutta niiden pää on leveä ja luteiden tapan liikkumaton.

Kaskaat – Wikipedia

Build or purchase a nestbox designed specifically for bluebirds. These boxes are made of unpainted, untreated 3/4" - 1" wood or PVC, have an overhanging slanted roof (2-5", with a shallow saw kerf (groove) to keep rain from entering the box), no

perch, a round 1.5" diameter hole (or 1.375" x 2.250" oval hole.
