Shyness and boldness in pumpkinseed sunfish: individual differences are context-specific ?

Shyness and boldness in pumpkinseed sunfish: individual

Free statistical software is a practical alternative to commercial packages. In general, free statistical software gives results that are the same as the results from commercial programs, and many of the packages are fairly easy to learn, using menu systems, although a few are command-driven.

Free statistical software - Wikipedia

R is a programming language and free software environment for statistical computing and graphics supported by the R Foundation for Statistical Computing. The R language is widely used among statisticians and data miners for developing statistical software and data analysis. Polls, data mining surveys, and studies of scholarly literature databases show substantial increases in popularity in ...

R wurde 1992 von den Statistikern Ross Ihaka und Robert Gentleman an der Universität Auckland entwickelt. Sie orientierten sich dabei eng an der in den Bell Laboratories (heute Teil von Alcatel-Lucent und somit Nokia) entwickelten Sprache S, die zur Verarbeitung statistischer Daten dient.R kann als freie Implementierung von S angesehen werden. Daher ist die Mehrzahl der für S geschriebenen ...
