Animals in Research - Society of Toxicology

Air pollution occurs when harmful or excessive quantities of substances including gases, particles, and biological molecules are introduced into Earth's atmosphere. It may cause diseases, allergies and even death to humans; it may also cause harm to other living organisms such as animals and food crops, and may damage the natural or built environment. ...

Air pollution - Wikipedia

The Guardian Air QR+ utilizes RGF's patented PHI-Cell ® technology and is easily mounted onto your existing air conditioning and heating system air ducts. When the HVAC system is in operation, the Guardian QR+ creates an advanced oxidation plasma (AOP) that is distributed through the duct system into the conditioning living space.
