pornography and child psychology pdf

Child pornography is pornography that exploits children for sexual stimulation. It may be produced with the direct involvement or sexual assault of a child (also known as child sexual abuse images) or it may be simulated child pornography. Abuse of the child occurs during the sexual acts or lascivious exhibitions of genitals or pubic areas which are recorded in the production of child pornography.

Child pornography - Wikipedia

Simulated child pornography is child pornography depicting what appear to be minors but which is produced without the direct involvement of children in the production process itself.
