A social issue is a problem that influences a considerable number of individuals within a society. It is often the consequence of factors extending beyond an individual's control, and is the source of a conflicting opinion on the grounds of what is perceived as a morally just personal life or societal order. [clarification needed] Social issues are distinguished from economic issues; however ...

Key points. The literature shows general agreement about a correlation between income inequality and health/social problems. There is less agreement about whether income inequality causes health and social problems independently of other factors, but some rigorous studies have found evidence of this.
