Congruence (symbol: \cong) is the state achieved by coming together, the state of agreement. The Latin congru? meaning "I meet together, I agree". As an abstract term, congruence means similarity between objects. Congruence, as opposed to approximation, is a relation which implies a species of equivalence.

1. Introduction. Economic integration at the global, regional and sub-regional levels is considered an important initiative for achieving economic growth and development, and the formation of EEU is seen as a move for better economic growth and success among select post-Soviet states (Mahmood & Mostafa, 2017). The first such attempt at closer political and economic integration occurred on ...

The adaptive process requires that organizations move away from status quo. Most organizations, however, are designed as complex systems rather than complex adaptive systems (Stacey, 1995). Complex systems differ from complex adaptive systems in that they are structured for efficiency and control, rather than adaptability (Brown and Eisenhardt, 1997; Eisenhardt and Tabrizi, 1995).
