The customer record may be complete or not –and the explanation of what brought the customer into the store and the reason for them leaving unsold can be real or an excuse.

An Auto Dealers' Guide to Outselling the Competition

The car-free movement is a broad, informal, emergent network of individuals and organizations including social activists, urban planners, transportation engineers and others, brought together by a shared belief that large and/or high-speed motorized vehicles (cars, trucks, tractor units, motorcycles, ...) are too dominant in most modern cities. The goal of the movement is to create places ...

Car-free movement - Wikipedia

A connected car is a car that is equipped with Internet access, and usually also with a wireless local area network. This allows the car to share internet access, and hence data, with other devices both inside as well as outside the vehicle. Often, the car is also outfitted with special technologies that tap into the internet or wireless LAN and provide additional benefits to the driver.
