The key to scheduling your winter-harvest plantings is to identify when your winter days reach less than 10 hours in length. It is during this darkest time of the year — referred to by Eliot Coleman as the "Persephone period" — that plant growth essentially stops.

Winter Growing Guide | Part 1: Scheduling Your Winter High

Staking and Pruning. Most commercial determinate tomatoes are produced using short stake culture for trellising. This type of culture produces fruits that are higher in quality and easier to harvest and enhances spray coverage.

Viticulture (from the Latin word for vine) or winegrowing (wine growing) is the cultivation and harvesting of grapes. It is a branch of the science of horticulture. While the native territory of *Vitis vinifera*, the common grape vine, ranges from Western Europe to the Persian shores of the Caspian Sea, the vine has demonstrated high levels of adaptability to new environments.

Samhain (/ ˈ s ʔ ʔ w ʔ n , ʔ s a ʔ ʔ n /; Irish: [sʔuʔnʔ] Scottish Gaelic: [sʔãʔ.ʔʔ]) is a Gaelic festival marking the end of the harvest season and the beginning of winter or the "darker half" of the year. Traditionally, it is celebrated from 31 October to 1 November, as the Celtic day began and ended at sunset. This is about halfway between the autumn equinox and the winter ...

The Census of Agriculture is a complete count of U.S. farms and ranches and the people who operate them. Even small plots of land - whether rural or urban - growing fruit, vegetables or some food animals count if \$1,000 or more of such products were raised and sold, or normally would have been sold, during the Census year. The Census of Agriculture, taken only once every five years, looks at ...
