World history or global history (not to be confused with diplomatic, transnational or international history) is a field of historical study that emerged as a distinct academic field in the 1980s. It examines history from a global perspective. It is not to be confused with comparative history, which, like world history, deals with the history of multiple cultures and nations, but does not do so ...

World history - Wikipedia

World literature is sometimes used to refer to the sum total of the world's national literatures, but usually it refers to the circulation of works into the wider world beyond their country of origin. Often used in the past primarily for masterpieces of Western European literature, world literature today is increasingly seen in global context. Readers today have access to an unprecedented range ...
